Year's Day.

EXCLUSIVE BANK BUILDING.

The contract for the erection of the new bank building by the First National bank at the southwest corner of Third street and Broadway has been awarded to the C. L. Gray Construction company, of St. Louis. Work of clearing the site will begin this week, and the new building will be rushed to completion as rapidly as possible. It is expected that it will be ready for occupancy by December 1. The bank has already moved into the building occupied by the Giese Bank & Trust company.

The new building will be erected at a cost of about \$40,000, and it will be one of the handsomest exclusively bank buildings in the state. It will be constructed of stone throughout, and will have a frontage of 49 feet on Broadway and extend back 57 feet, nine inches on Third street. The building will be only one story in height, and will be occupied solely by the bank, which is one of the strongest financial institutions in the city. It will be as high as the ordinary two-story building. The interior of the bank will be equipped with every modern convenience. The contract for the furniture will be awarded later, but as far as possible all the furniture will be solid and fire proof.

A modern safety vault will be installed, the contract for which has not been let. It will be equipped with private safety deposit boxes for the reception of jewelry and valuable papers.

Mr. E. E. Hallenberg, a representative of the contractors, arrived in the city this morning and will remain several days placing contracts for the furnishing and materials for the construction of the building. As far as possible, he stated, the materials would be purchased from Paducah dealers. Mr. Joe Worke, who will superintend the erection of the building, is in the city and will remain until the completion of the building.

The site is occupied by two old business houses which will be razed to the ground. It is one of the most important corners in the city.

EIGHT DROWN IN RIVER.

Twenty Thousand People Passing Bier of King Edward Every Hour of Day--Hundreds Waited in Rain

Stream of Subjects Seven
Miles Long Stretches Back
From Westminster Hall----
Impossible For All.

London, May 18.—For the second time Roosevelt visited George at Marlborough House. He was accompanied by Mrs. Roosevelt. It was her first presentation to the king. He returned the call of King Frederick, of Denmark. Hundreds of persons remained in the streets all night in order to be the first in the line to view the body of Edward, despite the rain. This morning people are being rushed past the bier at the rate of 20,000 an hour.

Many of those who kept an all night vigil were overcome and taken away in ambulances. Such a dense throng was outside Westminster at 6 o'clock that many of those who arrived there were compelled to wait until 9 o'clock before they were admitted. At noon the crowd was so big that it was useless for others to arrive. The patience and suffering of the people greatly affected the queen mother. She wept when she saw the depth of their love for the dead monarch.

By 4 o'clock this afternoon 130,000 people had viewed the body of the king. As many more are waiting. The line stretched away seven miles.

Auto and Bicycle Collide.

Mr. Sydney Loeb, driving his automobile, and an unknown bicyclist, collided at Tenth and Jefferson streets about 10 o'clock this morning. The bicycle rider was thrown off, but not injured. The auto swerved into a telephone pole in trying to avoid a collision and was slightly damaged. The bicyclist was crossing Jefferson on Tenth street, and in an effort to pass ahead of the machine he was struck.

Heavy Rain and Arrival of Troops
Delays Strikers.

Hannibal, Mo., May 18.—The arrival early today of four companies of state militia and a heavy rainfall quieted the striking workmen at the plant of the Atlas-Portland Cement company at Iaasco, four miles east of here, where a riot was threatened yesterday.

The 1,500 foreigners who threatened trouble, retired before the state troops arrived. A guard has been placed around the buildings, which contain four cars of dynamite.

On orders from Governor Hadley, Col. C. C. McDonald, who has command of the militia, closed the saloons this morning. An effort will be made to open the cement works this afternoon.

Kaiser Coming.

London, May 18.—The kaiser has left Berlin for London. King Alfonso of Spain and King George of Greece arrived last night.

Strikers Not Active

Hannibal, Mo., May 18.—No attempt was made by strikers today to stop work at the glass plant of Hasco. Troops probably will be withdrawn tomorrow.

MRS. HYDE IS LOYAL

TO HER HUSBAND YET

Kansas City, May 18.—Mrs. Hyde this morning declared she would never enter her mother's home until her husband was welcomed there as an innocent man. When told the family home was still open to her, she said, "What I told mother the night I left with Clark is true today. I never will enter unless Clark can go with me, and be received as an innocent man. My mother has been cruel and unjust in prosecuting Clark."

Capt. Kirkpatrick Here.

Capt. George W. Kirkpatrick, of Evansville, arrived here last night and accepted U. W. DeMeyer, of Pierce, Tenn., for the signal corps. Capt. Kirkpatrick returned home this morning. DeMeyer is 32 years old and a former telegraph operator. He left for Fort Wood, N. Y., where he will be stationed.

Illinois Mayors at Cairo.

Invitations have been received in the city by a number of business men, inviting them to attend a banquet tomorrow night at Cairo, to be given at the Halliday House by the Illinois Mayors' association. The mayors are meeting in Cairo, and the session will close with the banquet. Some of the most prominent men of the state will be present.

**MRI. JOYNE'S RETURNS FROM
FUNERAL OF HIS FATHER.**

Mr. A. L. Joyne's, manager of the local branch of the East Tennessee Telephone company, returned early this morning from Cincinnati, where he attended the funeral and burial of his father, Mr. L. C. Joyne. Mr. Joyne died last week at his home in Washington, but was buried in Cincinnati, his home for many years.

WANT REFORM IN STATE LAWS.

Gov. Deneen of Illinois Strongly Endorses Uniformity Movement.

Chicago, May 18.—Urging reform in state laws and declaring diversity of federal and state laws, with the resulting conflict of judicial decisions and authorities, is little short of disastrous, men prominent in many walks of life addressed uniform state legislation meeting under the auspices of the National Civic Federation here today.

Although unable to attend the meeting in person, Governor Deneen, of Illinois, sent a communication strongly endorsing the movement for uniformity of state laws.

John Mitchell, former president of the United Mine Workers, made a plea for uniform laws on the subject of prevention of industrial accidents and proper compensation for victims.

POPULATION OF PADUCAH WILL BE INCREASED 5,000

Tip Out That Census Will
Show Not Less Than
27,000 People

SCHOOL CENSUS AND DIRECTORY CORROBORATE.

TWO THOUSAND WEST OF CITY.

Paducah's population will show an increase of 5,000, or a gain of 500 annually since the last census was taken. While the enumerators are commanded to silence, this tip reached the street today from a reliable source, that the enumerators, eleven census, would average 2,500 names apiece, giving the city a population of approximately 27,500. The last census gave the city 22,464.

The school census shows an increase of 218 in the scholastic population over last year and 74 fewer vacant houses, while the Caron directory solicitors report that they are finding fewer vacant houses than they did two years ago. They make no forecasts and their estimates are compiled after the copy is prepared for the book at Louisville; but they have no hesitancy in saying Paducah will show a substantial gain in population over last year. This company always figures the population more conservatively than do rival concerns.

An average increase of 500 annually in a decade, in which a severe panic occurred, and when no special boom was experienced, is more than the most optimistic citizens had expected, and many declare they will be surprised if the figures reach 27,000, especially astonishing will be the fact, when it is considered that the greater part of Paducah's more recent growth has been westward and outside the corporate limits. It is estimated that the failure of the general council to extend the city limits westward has cheated the city out of not less than 2,000 population, to which she is justly entitled in the census. Considering the densely settled communities on the west corporation line, Paducah may easily claim her 30,000 population, when the census reports are made public.

WAR IS RESUMED IN NICARAGUA

BLUEFIELDS FEARS MADRIZ FORCES WILL BEGIN SHELLING THE TOWN.

Bluefields, May 18.—It is expected the final conflict in the Nicaraguan war will soon be fought. The armies of Estrada and Madriz engaged in a sharp battle yesterday at Rama. The losses were heavy. If Estrada's forces are defeated, Madriz's army will have a clear road to Bluefields. Americans fear the city will be sacked. Three United States gunboats are within wireless call. The steamed Venus is expected to start shelling the city anytime.

Blizzard Pond Work.

Mr. James Caldwell returned this morning from Chicago, where he secured machinery preparatory to beginning the digging of a ditch to drain Blizzard pond. It is expected to begin the work in a short time.

Can't Wrestle in Chicago.

Chicago, May 18.—The promoters of the Gotch-Zhyszko match who were refused a permit by the mayor to hold the bout here on Decoration day, may pull off the affair at the old Harlem race track if they cannot persuade or force the mayor through the courts to change his ruling.

STATE COURT OF APPEALS PASSES ON CONTRACT IN RESTRAINT OF TRADE AND DECLARES IT IS NULL AND VOID

Condition of Dr. James is Re-
ported Critical Again---As-
sistant Inspector of Mines
is Reappointed.

Frankfort, Ky., May 18. (Special) In affirming a Louisville case, the appellate court holds that a contract made in restraint of trade is void and not enforceable in Kentucky.

Dr. James Critical.

Central City, Ky., May 18. (Special) The condition of Dr. A. D. James is critical. Three physicians were called in. He is not expected to live through the day.

Jones Reappointed.

Frankfort, Ky., May 18. (Special) The governor reappointed H. D. Jones, of Central City, assistant mine inspector.

Fight May Not Go as Scheduled.

San Francisco, May 18.—While none of the Alameda county officials will say they will try to stop the Jeffries-Johnson fight, there is a well grounded belief here that the big battle will not be held in Emeryville. The district attorney is said to be working on an opinion as to whether the fight can be held there, and the sheriff is waiting for his ruling.

Jeff Keeps Grinding.

Ben Lomond, May 18.—Jeffries kept up his training grind for two hours and fifteen minutes, his longest uninterrupted session. He showed no fatigue.

Johnson's Usual Stunts.

San Francisco, May 18.—Johnson went through his usual stunts. He expects to box ten rounds tomorrow.

Fight Declared on Again.

Los Angeles, May 18.—The Conley and Moran match, which was declared off last night, is on again. They will fight ten rounds June 7 at Naud, which no decision is permitted.

**H. THOMPSON ACCEPTS
PLACE OF DEPUTY KIDD.**

Mr. H. Thompson has accepted the petition of deputy circuit court the position of deputy circuit court Clerk Joe A. Miller. Mr. Thompson is from Marshall county and is a former circuit court clerk of the Marshall circuit court. He is filling the place of Mr. W. C. Kidd, who has been unable to be on duty for several months owing to illness.

**OFFICER IS ACCUSED OF UN-
PARDONABLE OFFENSE.**

Manila, P. I., May 18.—Col. Robert Ames was arrested at Fort McKinley, charged with conduct unbecoming an officer, and prejudicial to military discipline. He will be court martialled immediately. This action follows the investigation of the suicide of Lieutenant Janney at a dance at Ames' house, March 12. It is alleged Janney's act was caused by the attentions of Ames to his wife.

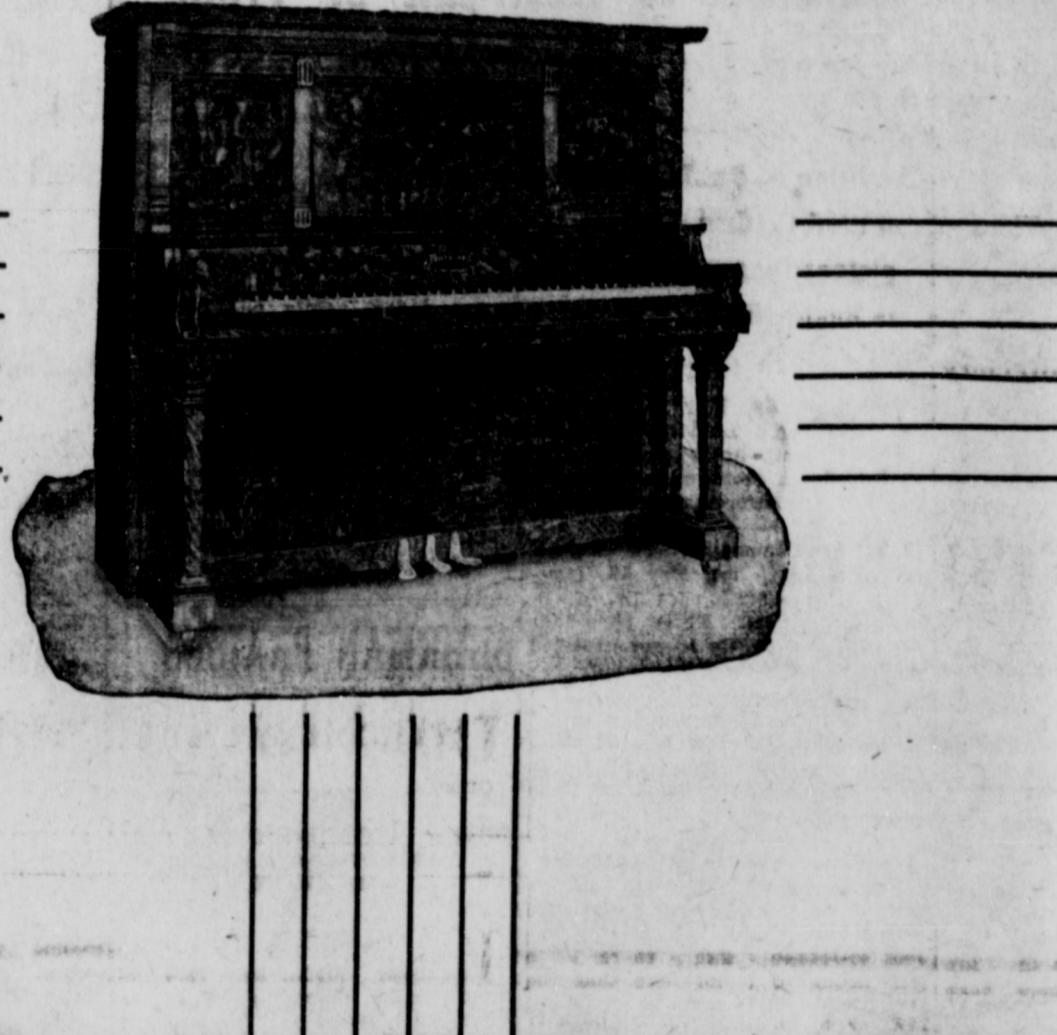

**OLIPHANT ALONE IS
SUED IN SLANDER CASE**

The suit for damages as the result of alleged slander, filed by Councilman W. L. Bower against John T. Oliphant, and the Vincennes Bridge company, is now a suit between the two men. This morning in circuit court Judge William M. Reed sustained the demurrer of the defendant as to the Vincennes Bridge company, but overruled the demurrer as to Mr. Oliphant. Attorneys for Mr. Oliphant sought to have the trial of the suit continued until the October term. Time was given until tomorrow morning for the preparation of affidavits, and the motion for a continuance will be taken up.

**FIREMEN ARE HOSTS
TO CITIZENS TONIGHT**

To attend the annual meeting of the general assembly of the Cumberland Presbyterian church seven representatives of the Paducah church will leave at 4 o'clock tomorrow morning for Dickson, Tenn., where the session will be held for one week, beginning tomorrow. This will be the centennial session and Dickson is the birthplace of the church. Those going from here are the Rev. and Mrs. D. W. Fooks, Mr. and Mrs. Jack Gilbert, A. J. Rudolph, Robert Roark and Belene Orr. They will be accompanied by the Rev. S. B. Rudolph and Mr. H. Rudolph, of Calvert City.

IMMIGRATION BECOMES ISSUE

DOCTRINE OF EQUAL RIGHTS FOR RACES NOT ENDORSED.

Exclusion of Chinese, Japanese, Koreans and Hindus Recommended in Majority Report.

THE SOCIALISTS' DISAGREE

Chicago, Ill., May 18.—Delegates to the national congress of the Socialist party today became involved in a dispute over the question of immigration. The submission of majority and minority reports from the committee which has been investigating the proposition for the past two years started a flood of oratory.

The doctrine of equal privileges for all races, as enunciated by the international congress of the party at Stuttgart, was not wholly endorsed in the majority report, which recommended the exclusion from the United States of all Chinese, Japanese, Koreans and Hindus. Ernest Utterman, of California; Victor L. Berger, of Milwaukee, and Joshua Wanhoppe were sponsors for the majority report. The minority report was presented by John Sparge, of New York.

It declared it to be the duty of the Socialist party to break down the barriers that separate the various races.

The majority report endorsed all parts of the Stuttgart immigration plank except that dealing with the Asiatic races.

"We advocate the unconditional exclusion of these races," says the report, "not as races per se, not as peoples with definite physiological characteristics, but for the evident reason that these peoples occupy definite portions of the earth which are so far behind the general modern development of industry that they constitute a drawback, an obstacle and menace to the progress of the most aggressive, militant and intelligent

elements of our working-class population."

Declaring that the volume of Asiatic immigration is too small to constitute a menace, the Sparge minority report says the Socialist party must make a supreme effort to break down the barriers which keep immigrants outside the organized labor movement.

Why is Sugar Sweet?

If sugar did not dissolve in the mouth you could not taste the sweet. IROVE'S TASTELESS CHILL TONIC is as strong as the strongest bitter tonic, but you do not taste the bitter because the ingredients do not dissolve readily in the acids of the stomach. It is just as good for Grown People as for Children. The First and Original Tasteless Chill Tonic. The Standard for 30 years. 50c.

New Classification.

A Columbus, O., banker once gave his wife a book of blank checks, all properly signed and ready for filling in.

"You are welcome to use these as you see fit," he told her, "but I want you to write on the stub of each just what that check was used for, then when the book has been used up I will look over the stubs and see what disposition you have made of them."

She handed him the book the other day, after using all the checks, and he began an inspection of the memoranda in the stubs.

"Here is check 79 for \$75, marked

"church expenses." What church expenses are these? I have regularly paid the assessments," said.

"Oh," replied the wife, "that was for a new Easter bonnet."—Lippincott's.

THE IDEAL LOCATION
For That New Home is In
Beautiful Gregory Heights

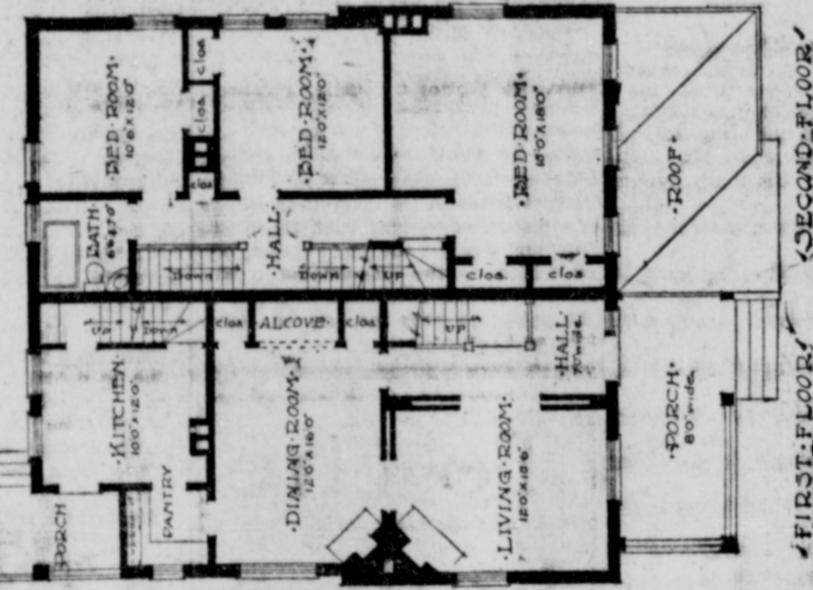

No matter what character of home you build, the location will mar or make its attractiveness. Gregory Heights is truly the ideal location in Paducah for a home. High, rolling ground that is easily drained; off, away from the dirt and grime and noise of the city; with the street car at your door; pure, bracing, health-giving fresh air in plenty, ALL the time; these are but few of its attractions.

WE SELL ON EASY TERMS AND REASONABLE PRICES

HINTS FOR PROSPECTIVE BUILDERS

This is a great era of home-building in Paducah. Everybody seems to be realizing that the best home is a home they own and have built as they want it. For the benefit of our readers who are considering building and are still undecided as to the style or price of home to build, we are, each week on this page, showing original, attractive and practical illustrations of modern moderate priced houses that will offer helpful suggestions and give a fairly accurate idea of what it will cost to build.

A Double House of Exceptional Attractiveness

The design as shown above is for a pressed brick veneer double house of six rooms and bath to a side. The style is English and while plain is of very attractive appearance. Size of house 40x40 feet. Height of stories: First, nine feet; second, eight feet six inches; cellar, seven feet. The above house with furnaces, grates, mantels and plumbing should be built at a figure within \$5,000. Built in frame about seven hundred dollars less. Study the above perspective and floor plan drawings and note the convenient compact arrangement of the whole house. As both sides, except being reversed, are the same, we are showing only the first floor left and the second floor right. Although slightly more expensive to build than single houses, double houses because of their extra room earning capacity, are a good investment and are being quite extensively built in this city.

Complete plans and specifications, in duplicate, for building this house may be secured from this office for \$35.00. For alterations making additions or reversing plans a slight charge will be made, dependent as to the amount of extra work involved.

Beautiful day for the comet.

And, then, remember it will damage the comet just as much as it will the earth, if they collide.

Caught all that about the "descending node," "perihelion," "plane of the ellipses," and "transit of the sun," did you?

Spectacularly, Europe is getting all the best of it. They get to see Roosevelt, King Edward's funeral cortège and the transit of the comet.

Of course, it is encouraging, so speak, to reflect that "Mercury and Venus have been closer than the comet than the earth will be, and both are shining on;" but we have lost most of our vanity. We are not worrying about our shine any more.

The frost has killed the fruit crop; tobacco plants are scarce in the Black Patch; and now comes the report that cut worms are ruining the corn. Presently the boll weevil and the wheat blight will be getting in their work. If we had never heard these calamitous predictions before, we would say let the comet come; we shall starve to death, anyway.

Stenographer Kerby, who exposed confidential dictations in the office of the secretary of the interior, says he has been offered a position by the Newspaper Enterprise association. Somehow, the sort of newspaper enterprise Stenographer Kerby has been guilty of does not appeal to us. If he is unfaithful to his employer as a stenographer, who knows what he would do to a newspaper for (say) 30 pieces of silver?

The Owensboro Enquirer says: "The tax rate of Owensboro, \$2, is high. But it is not the fault of the present administration. Moreover, a citizenship is not so much concerned with the height or the lowness of the tax rate as it is with what it got for it and because of it."

Owensboro has a lower property assessment and a tax rate of 15 cents on the hundred dollars higher than Paducah's. If Owensboro, whose municipal improvements the last two years cannot be compared with Paducah's, is satisfied, the people of Paducah ought to call themselves blessed.

ON MAKING A MURDERER.

Dr. Hyde's excellent defense of himself, is what convicted him, according to the twelfth jurymen, who was convinced of the doctor's guilt by a review of Hyde's statement that he bought cyanide ten times and couldn't remember from whom he bought it.

Hyde's case is an abnormal one of a type, not altogether uncommon. Our Sunday school teachers used to tell us we must not think evil. That was supposed to be because it was naughty. Psychologists since have gone wild about "suggestion", but physiologists now understand some-

thing of the effect of a fixed idea on the brain structure. Hyde lacked that durable character, which can be established only by youthful training, so as to permanently shape one's life.

Be that as it may, he is a doctor with a knowledge of all sorts of drugs and germ diseases. His wife is the niece of Colonel Swope, a millionaire, of convivial habits, who made a will, so conditioned, that upon the death of any heir all the other heirs would benefit out of that one's share. Hyde got to thinking about that, and the idea somehow became associated with professional channels in his mental processes. Now, some of our modern philosophers might defend him on the ground that his persistent, concentrated thought produced evil effects on his wife's co-heirs. At any rate, a most peculiar series of fatalities carried off ten of the heirs of Colonel Swope, one by one, and Dr. Hyde the attending physician in several cases, was most unfortunate in his treatment. He let one man bleed to death while trying to reduce the pressure of his blood; he is said selfishly to have insisted on drinking from a private water pitcher while enjoying the hospitality of the Swope shortly before an epidemic of typhoid fever broke out among them, and a nurse swore she saw him inject dirty water into a young lady's arm. He seems also to have been remarkably careless about carrying cyanide capsules with him when he called on Colonel Swope during that gentleman's last illness.

Altogether, Dr. Hyde appears to have been transformed from a rising and popular young physician into a demon, just by thinking about money that belonged to someone else. Dr. Hyde's parent, no doubt, saw no early manifestations to indicate the latent fiendishness that evolved the subtle doom of the Swope heirs. More than likely, he was an amiable child in most ways, his crimes are indications of weakness, rather than strength. It requires more strength to remain contentedly poor, than to gain riches by dishonest means; for the latter amounts to nothing except succumbing to temptation.

Character cannot be developed after maturity. Discretion may; but refraining from gross evil through fear of consequences is a negative substitute for the active virtues of high character, and becomes especially futile if discretion is acquired at the expense of reputation. Principle; sound ethics; high aim; appreciation of responsibility for natural talents and purpose to make them useful; self-respect, which makes a man regard his own opinion of himself as highly as he does that of others; realization that development of character and self-culture are riches which outlast material wealth, and that honor must not be confused with official titles—these are qualities of mind that never were found in a felon's cell or paid the penalty for crime upon the block or gallows; yet have more than once converted a prison into a temple of reform, and paid the price of human liberties to the headsmen.

Parents, who educate their children to believe the law of the jungle is the true one, that the earth is the inheritance of those who can possess it, and material acquisition and comforts are the only desirable ends in life, may be training a Hyde for his murderous career, to write their unsightly name on a prison record, or end their life in an electric chair.

There is nothing that modern science has disclosed to modify the advice of wise old Solomon, who was something of a husband and father himself.

Some Stories Around the Town.

Mr. Joseph Elsey Bridgewater, of LaCenter, a son of Mr. J. E. Bridgewater, was the valedictorian of his class at the Marshall Training school in San Antonio, Texas. The commencement exercises were held last night and the Kentucky lad acquitted himself with credit. By virtue of his finishing with first honor he will receive a scholarship in the University of Texas.

The first of a series of get together dinners was held yesterday at the Palmer House by the members of the Paducah local board of fire insurance underwriters. A delightful dinner hour was enjoyed, and as a result it is planned to hold the dinners every month. They will be for the purpose of the fire insurance writers becoming better acquainted socially. The dinner was impromptu and was enjoyed by all present. Mr. Ell G. Boone was toastmaster and a number of impromptu talks were delivered. Those present were: Messrs. E. G. Boone, Wallace Well, Frank Boone, Frank B. Smith, C. E. Jennings, S. T. Randle, Thomas T. Neely, Al Foreman and W. P. Hume.

Another little girl in Paducah has the distinction of being the fifth link of a family of five living generations. The girl is Little Miss Bertha Virginia Crawford, the five-months-old daughter of Mr. and Mrs. William Crawford, 1119 Clay street. Her great-great-grandmother is Mrs. A. P. Turner, of Robards Henderson county, and she is 83 years old. Mrs. James M. Gentry, 918 Clay street, is the grandmother of the little girl, while Mrs. Mattie Lee, 1133 North Thirteenth street, is the great-grand-

mother. As yet little Miss Crawford has not seen her great-great-grandmother, but in a few weeks it is expected to have a picture made of this family group.

Eighth and Husbands streets was the scene of a colored panic this morning, when a small fire broke out. The comet, which was below the horizon, extended its tail in a magnificently weird arc from the line where the earth and sky meet in the east to the very zenith of the heavens, while the sun rose into a clear sky. Its light gradually crept up the borderland between night and day, and absorbing the hazy outlines of the comet's tail in a blaze of glory, as the fire department, with clanging gongs dashed around the corner. The colored residents thereabout hadn't slept well last night, and were up early to see what they might see. Their eyes were fixed on the celestial phenomena, and the possibility had just occurred to most of them that the comet might have struck the earth somewhere back of Brookport and set it on fire, when the fire department appeared. That put the finishing touches to the idea and in their imaginations they saw Paducah burning and an end to the world. The firemen report almost a riot during the panic.

The fire broke out early this morning in a small restaurant adjoining the grocery, and quickly spread to the attic of the building. Patrolmen Gillette and Baldridge discovered the blaze and gave the alarm. When the firemen reached the scene the blaze was burning briskly and it required considerable water to drench the fire. The stock in the building was thoroughly soaked with water. The loss is estimated at about \$500 with \$800 insurance.

Mr. Dennington is a former patrolman, but resigned from the police force last December. He was ill today as a result of the exposure received at the fire this morning trying to save his books.

The near approach of Halley's comet caused Chief of Police Singery no small amount of worry this morning when his cook refused to be on hand for work, fearing the end of the world would come sometime today. "I'm goin' to stay home with my man tomorrow," she told Mrs. Singery last night after she had finished her work. "Ef dat dar comet of Mistah Halley's hits dis old world ole Gabriel will tot his horn and dere won't be nuffin left; so I've gone to stay at home tomorrow." All means of persuasion were without results and this morning she didn't appear for breakfast. About 8 o'clock she put in her appearance and with a broad grin, said: "Misse Singery, Ise got to studdin' bout dis here comet and it looked pow'ful bright today, so Ise just decided to come to work."

SUNDAY GAME

WILL BE PLAYED BETWEEN
REGULARS AND COLTS.

Fans Will Have First Opportunity to
Witness League Ball
Here.

Fans will have the first opportunity to see the Indians work out next Sunday when the Regulars will line up against the Colts. Manager Cooper has arranged the game for Sunday afternoon, and it is expected that fans will be out en masse to see the players. The pitchers have not been selected but it is expected every finger will be given an opportunity to work out.

Regular practice was held this morning at the park, and again this afternoon Manager Harry Cooper trotted out his players for another drill. In the squad there are some hefty ball players, and it is the opinion that the other three teams will have to have a classless team to outdistance Paducah.

Last night Jesse Guinn, a pitcher, signed up with the Indians. Guinn has been with the Memphis Southern league club, and he is expected to set the league afire. Guinn was held by Memphis until the final limit of players, and then the team sought to hold a string on him. In Guinn, Ewing Harris and Crain, the Indians have three strong pitchers, in whom the fans may have confidence.

Nearly all the squad have arrived, but a few stragglers are expected to come into camp tonight.

CARPENTERS ENTERTAIN

FRIDGES OF THE UNION.

The members of the carpenters union entertained their friends last night with a smoker at the Central Labor hall. The entertainment was informal, but a pleasant evening was enjoyed. Music was enjoyed during the evening and refreshments were served. The contractors of the city were guests of the carpenters during the evening.

The Unpardonable Sin.

At the First Christian church, corner Seventh and Jefferson streets, the pastor, the Rev. R. A. Fite, will speak this evening on the "Sins Against the Holy Spirit." He will point out by the scriptures what the unpardonable sin is, about which there has been so much confusion in so many minds. A lucid, logical and convincing presentation of this theme is promised.

The theory most commonly held about the unpardonable sin is that it is continued rejection of Christ, persistence in sin expressed in the maxim, "No repentence, no pardon." This, however, is not the theory of the speaker tonight. He will show by the language of Christ that the unpardonable sin is something very definite and tangible. He will indicate in the discourse tonight that there are four sins against the Holy Spirit, one of which is the unpardonable sin. A very cordial invitation is given to the public to hear the sermon. Services at 7:45 o'clock.

IN SOCIAL CIRCLES

Dance for Graduates.

It was decided yesterday afternoon by the High school to entertain the senior class with a reception dance at the Three Links building June 7 instead of the separate class receptions at the High school as previously. The committee from the faculty composed of Miss Adah L. Brazelton, Miss Edna McLaughlin and Prof. Hugh B. Craig met with the representatives of the freshmen, sophomore and junior classes and decided on the reception-dances. The entertainment will open with a reception, with the members of both the divisions of the graduating class, and the members of the faculty, and the undergraduates in line to greet the visitors. Light refreshments will be served. Later a dance will be enjoyed. The reception this year promises to be one of the best events of the commencement week.

Mardi Club With Miss Sebree.

Miss Elizabeth Sebree was hostess to the Mardi club on Tuesday afternoon at her home, 419 Monroe street. It was pretty and informal affair. Euchre was played and at the conclusion of the game a delightful ice course was served. The prizes, which were attractive gold pins, were won by Miss Nell Shaw and Miss Hazel McCandless. Those present were: Misses Fred Paxton, Nell Shaw, Mabel Nichols, Elizabeth Boswell, Corinne Winstrand, Hazel McCandless, Gertrude Scott, Lillian Mae McGlathery.

Reading Contest.

The pupils of grades five and six McKinley school, will hold a contest Thursday afternoon at 3 o'clock. Each class has memorized one poem a month as part of the required work in English and the contest will be to decide which class and which pupil of the class reads the selected poems best. The class representatives, two for each poem learned, were selected on Monday by their respective classes.

Rehearsal With Mrs. Wells.

There will be a rehearsal of "King Rene's Daughter" Thursday afternoon at 3 o'clock with Mrs. H. S. Wells, at the Shamrock apartments.

Pretty Luncheon to Miss Whitefield.

A beautifully appointed affair and a charming compliment to a popular bride-to-be, was the one-o'clock luncheon in honor of Miss Kathleen Whitefield. It was given by Mrs. H. B. Sewall and Mrs. Harry G. McElwee at the Sewall home on Jefferson boulevard. The guests were limited to a coterie of intimate friends, calling themselves the Thimble club, an organization of the past winter.

The colors white and gold were effectively carried out in the appointments of the attractively arranged table. A lace cover over pale yellow veiled the table. The centerpiece was a crystal vase of Bride roses. The table was lighted by white candlesticks gold-shaded. The place cards were Bride roses with a dainty little white and gold wedding bell attached. White and gold glass and china of white and gold added to the charm effect. The delicious 6-course menu carried out the color motif, and Cupids, wedding bells and other symbols were attractively emphasized. The salad course was especially pretty. It was served in baskets of grapefruit with handles of tulle and tiny waxen Cupids attached to the tulle winter.

Mrs. Moore was revived and asked to be taken to her apartments in the Sinton hotel, where her family physician, Dr. Frances L. Bishop, of St. Louis, would be able to take care of her. Dr. Bishop said that Mrs. Moore is very badly injured and that she will be unable to leave her bed for several days. Dr. Bishop wired to Mr. Moore, and he answered that he was coming by the earliest train.

Unable to Attend Meetings.

Mrs. Moore's daughter is here with her and said that her mother has arranged with Mrs. Josiah E. Cowles, of Los Angeles, first vice-president of the organization, to sit in her place.

Mrs. Moore issued a statement in which she thanked the members of the General Federation of Woman's clubs for their kind wishes.

The nominating committee of the General Federation of Woman's clubs named the officers to be voted on, but strict secrecy was maintained as to the choices, although it was given out unofficially that Mrs. Moore, the present president, had been nominated as the next head.

HYDE WON'T WASTE TIME.

Kansas City, Mo., May 18.—While Dr. B. Clarke Hyde, who was convicted here yesterday of the murder of Col. Thomas H. Swope, is in jail, he is not going to permit his medical mind to become rusty. The physician had one of his attorneys bring him a score of texts from his office. He will study them regularly each day, he says.

Professional associates of Dr. Hyde are not surprised at his study in jail. He was known among the physicians as a serious student, and was well abreast of the time in medicine and surgery. It was largely in recognition of his ability, it is said, that he was elected president of the Jackson County Medical society this afternoon on business.

Detective T. J. Moore left this morning for Hickman on business.

Mrs. C. W. Lewis left this morning for Hopkinsville and Princeton to visit relatives.

Col. and Mrs. Mott Ayres left last night for Fulton.

Mr. Wm Vandevelde, 824 Bachman street, left today for Millwood, Ill., on a visit to his sister, Mrs. Mollie.

Methodists May Conclude Session of Conference This Week, It is Said.

VANDERBILT TROUBLE OVER.

Asheville, N. C., May 18.—The committee on episcopacy reported the passage of Bishop H. C. Morrison's character and recommended that he be continued on the effective list, but be given light work. The committee found that the complaints against his administration were sustained, but recommended itineracy because Bishop Morrison promised to correct the matters complained of in his official administration. Judge E. C. O'Rear, of Kentucky, defended Bishop Morrison on the floor and pleaded that the bishop be given full work.

After much discussion the conference voted to accept the report of the committee on episcopacy which sustained the complaints against Bishop Morrison and recommended that the college of bishops give him light work.

The Rev. Gross Anderson was re-elected book editor and editor of the Review.

Bishop H. C. Morrison presided at the afternoon session of the general conference. Matters pertaining to the system of Randolph Macon college were referred to the committee on education. Greetings were received from the Little Rock Home Mission conference and invitations were received from San Antonio, Texas, and Atlanta, Ga., to hold the next session of the conference in those cities. There was no election on the first ballot for editor of the Nashville Christian Advocate.

The memorial of the women asking the rights of the laity was made a special order before the conference Thursday morning.

Vanderbilt War Over.

The conference voted against publishing a simplified hymnal. The conference voted to leave the West Florida territory in the bounds of the Alabama conference.

The ballot for missionary secretary resulted in no election. Rev. O. E. Brown, of Nashville, Tenn., was in the lead for the office when the conference adjourned.

A new edition of the German discipline was ordered.

Rev. E. B. Chappell, of Tennessee, was re-elected Sunday school editor. The committee on education sub-

tion which he has approved has gone through; every one he has disfavored has gone down. His personality has overshadowed everything else in the conference, and on the days that he was away from here in Washington there was a listlessness overhanging everything, that told of the absence of the master spirit of Methodism.

Bishop Hoss, Master Spirit.

He was very happy today. He had seen his church issued forth from years of strife and contention into the calm of conservatism. He had seen the great question of the ownership of Vanderbilt University, in which his soul was wrapped up, decided in favor of the church, as he wished it to be decided, for he brought on the battle and fought it to the end in the church almost unaided. He had seen radical legislation that caused his heart to tremble, routed and defeated. He had seen his dearest friends, save one, elected to the episcopacy, one of whom, Collins Denny, went in by the biggest majority ever given a Methodist bishop, north or south. With all of it before him, he declared:

"The hand of God is in this. Blessed be His holy name."

Bishop W. B. Murrah will make Memphis his episcopal seat in all probability. He has not made a definite decision in the matter yet, but as that city is regarded as a pivotal point in southern Methodism, and as it is near to his adopted state of Mississippi, so many of whose sons he has educated, the chances are that he will move there from Jackson, Miss.

No bishop in the history of Methodism has ever resided in Memphis, though several have been invited. Bishop Murrah is already well known to many people in Memphis, and if he comes he will be given a cordial welcome, and every member of the Memphis delegation this morning extended him the following invitation:

Murrah May Be Memphian.

"We, the delegates to the general conference now in session from the Memphis conference, hereby extend a cordial invitation to you to make your episcopal residence in the city of Memphis.

"W. G. Hefley, J. W. Blackard, H. B. Johnston, J. R. Pepper, R. W. Hood, John B. Howell, James A. Robin, Thomas D. King."

Bishop Colling Denny will probably make his episcopal home in Washington city. He is a member of the Baltimore conference and the nation's capital is the most important city within its bounds. His delegation in this general conference has requested him to move to Washington from Nashville. He is a man of distinguished ability and would be an ornament to his church anywhere.

Southern Methodism is now building a great monumental church in Washington and Bishop Denny is wanted to aid in this work, as well as to be the representative of his church where one is needed.

Bishop John C. Kilgo will make his home in South Carolina, his native state, either in Charleston or Columbia. He is the Bonner of Southern Methodism.

The conference may get through with its work this week, there being few matters of importance on the calendar for action. It is thought that the woman's rights memorial will be easily defeated, also the memorial to change the name of the church. The conference is easily conservative by a two-to-one vote.

Bishop E. E. Hoss comes out of this session the foremost figure in Southern Methodism. Every ques-

CITY AND COUNTY OFFICIALS RIDE

ENJOY TRIP OVER LINES AND INSPECT EQUIPMENT.

End Journey at Wallace Park, Where Banquet and Smoker Are Held.

MANAGER SEWALL'S GUESTS

Inspection of the properties of the Stone & Webster company in the city was made yesterday afternoon by the city and county officials and members of other local organizations. Mr. H. B. Sewall, local manager, proved an ideal host. He had arranged the entertainment so that there was not an idle moment. Wallace park was the end of the trip, where the joyriders were served refreshments, and spent several hours enjoying the sights, as the latch string to everything was out to them.

"JUST LIKE PAPA"

Children Glad to Have Their Drink Like Their Parents.

More than any of the old folks realize, the little folks at the table like to have food and drink the same as father and mother.

Perhaps you can remember the time when a fork-full of the meat or potato or a sip from the cup that your father or mother was using seemed to possess some remarkable merit and flavor.

If children can be given a strong, nourishing food drink such as Postum it satisfies their desire to have things like the older folks, and at the same time gives them a drink they love and fatten on.

A lady up in Oakes, N. D., says that since their family have been drinking Postum the children are stronger and better than ever before, and are so glad that they can have coffee to drink "just like papa."

The husband and father was taken sick with a very severe attack of stomach trouble and had to give up work, being confined to the house for some weeks, suffering greatly.

For some time he had been in the habit of drinking coffee for breakfast, and tea for dinner and supper. The wife writes: "After reading some of your advertisements we wondered if coffee and tea had not been the cause of his sickness.

"We finally decided to have him quit tea and coffee and try Postum. He dates his recovery from the day he commenced to drink Postum, and has not had to stop work from sickness since then.

"Some years ago I tried a package of Postum and did not like it, but I know now that it was because I did not make it right. It is easy to make good Postum if the simple directions on the package are followed.

The only failure is when people do not boil it long enough.

Read "The Road to Wellville," found in packages. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Be Happy

Drink
FAN-TAZ—the drink that helps you think.

Full of sunshine, joy and gladness.

It's for all the family all the time.

SETTLERS ARE
TABLE TO PAYRECLAMATION WILL STAND THE
ACID TEST.

Irrigation Projects in the West Will
Be Paid for by the Farmers
In History of Irrigation.

CROPS VALUED AT \$14,000,000

Washington, D. C., May 18.—The acid test of the practicability of all the government reclamation work is at hand. On April 1, there was due and payable into the reclamation fund from the settlers on the various projects, approximately \$1,000,000 for water rights. If the farmers are able to meet their payments, it evidences that the government is able to secure a return on its investment. If the payments are not made, the law is a failure in one of its most important provisions and the operations of the reclamation service would quickly be brought to an end.

But a careful canvass of the projects on which water rights charged are due indicate that the settlers as a rule are able and willing to meet them.

On the big North Platte project in Wyoming and Nebraska there were 325 farms with charges due on April 1. It is reported that 227 of them paid up as early as last December and of the remaining 108 the engineers in the field estimate that not more than ten will be likely to be canceled. Most of these could relinquish at this time at a profit.

Even on the Truckee-Carson project in Nevada where conditions have been as unfavorable as any could be, the reports show few delinquencies. On the Okanagan and Sunnyside projects in Washington, the Shoshone in Wyoming and the Huntley and Sun River in Montana, it is predicted that every farmer will meet his obligations.

The payment of their indebtedness by these farmers will probably be the most important single event in the history of national irrigation. There never has been any doubt as to the competency of the engineers to construct the projects, but doubt has been expressed as to whether the government could get its money back.

The farmers in the districts will be the answer and the vindication of the reclamation law.

Where the reclamation service finds that a failure has been due to conditions not under control of the settler, it is possible that some way may be found to protect his rights, but where the evidence is that the settler has made no effort to protect himself, he need expect no aid from the government. The farmers who came to farm, however, are making good.

The crops produced on the irrigated lands operated by the water system of the government in 1909 had an estimate value of \$14,000,000 and the land values increased not less than \$105,000,000.

RAISING OF THE MAINE.

Appropriation By Congress is Too Small.

New York, May 17.—The bill appropriating \$100,000 to raise the wreck of the battleship Maine in Havana harbor, and which now awaits the signature of the president to become operative, contemplates that the work shall be done by the engineer corps of the army. In the opinion of the Merritt-Chapman Wrecking company the wreck cannot be raised for the amount appropriated. It was this company that sent its big wrecking steamer, the Right Arm, to the scene directly after the disaster and the divers of this company made the first examination of the wreck in conjunction with those supplied by the navy.

Speaking for his company, Mr. Chapman yesterday made it plain that he did not think it possible for the wreck to be raised for the amount appropriated. He believes the work will consume a full year. Mr. Chapman added that his company has no idea of bidding for the contract.

It is unlikely that the contract would be let to any private concern, because of the international interest that attaches to the vessel.

LUCK OF MURDERESS.

Condemned, Her Sentence Commuted
By Grand Duke.

Berlin, May 17.—August Zobel, a Berlin milliner, who murdered her rival in love, Frida Barthold, owes her life to the birth of an heir to the grand duke of Mecklenburg-Schwerin. There was great rejoicing on the happy event, and the grand duke ordered the reduction of sentences on criminals imprisoned in the grand duchy. Among them was Augusta Zobel, whose execution was to have taken place this month. The sentence was commuted to penal servitude for life. The woman's crime was committed at Rostock, where the young opera singer, Frida Barthold, was appearing. Zobel's jealousy was aroused by her lover deserting her for the singer, and she went to visit Fraulein Barthold, with a revolver concealed in her muff. After the tragedy the murderer was arrested at the railroad station.

SAGE AND SULPHUR

Made Her Look Twenty Years Younger

Read Mrs. Herrick's Sworn Statement

STATE OF NEW YORK, COUNTY OF MONROE, N. Y.

Nancy A. Herrick, being duly sworn, deposes and says: "When I was a girl, I had a head of heavy, long dark brown hair which was the envy of my schoolmates, and which attracted the attention and remarks of strangers. As I grew older, my hair turned gray, and became first, by gradually more and more, and then began to turn gray. I was induced by the many good reports I had heard of Wyeth's Sage and Sulphur Hair Remedy to buy a bottle of it. My hair was quite gray when I began using Sage and Sulphur, and you can imagine my satisfaction when I found that it was fast coming back its natural color. I have been using it daily, making it more glossy than it had been for a long time. I continued to use Sage and Sulphur, and my hair is now as heavy, dark and smooth as when I was a girl sixteen. It is now four years since I commenced using Sage and Sulphur, and my hair is still in splendid condition."

See before me this 18th day of May, 1909.

CATARRH GOES.

So Does Sore Throat, Bronchitis, Croup and Asthma.

You can easily tell by reading the symptoms below, whether you have catarrh or not:

Offensive breath, frequent sneezing, discharge from the nose, stoppage of the nose, huskiness of the voice, tickling in throat, droppings in throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucus, difficulty in breathing, loss of vital force. W. J. Gilbert has a sensible remedy (money back if it fails) for catarrh, called Hyomei (pronounced High-o-me) which is a vaporized air, so antiseptic, that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life, gives relief in two minutes, and cures catarrh.

The price, including hard rubber inhaler, is only \$1.00. The hard rubber pocket inhaler will last a lifetime, so that should you need a second bottle of Hyomei, you can get it for 50 cents.

RAILROAD NOTES

The Illinois Central wrecker and crew left Paducah this morning at 6 o'clock for McHenry, to replace a derailed car of lumber on the track. The wrecker will return tonight.

Traveling Engineer Lloyd Grimes, of Fulton, was in the city today on business.

A. F. Byers, general yard master, left this morning for Louisville and Indianapolis on business.

Dr. Gardner Recovering.

Dr. W. F. Gardner, of Carville, whose left ankle was mangled several weeks ago when it was caught in the machinery of a motor boat at Goleonda, Ill., is rapidly recovering at Riverside hospital and will be able to return home in a few days. At the time of the accident one of the tendons of the leg was wound around the cylinder, making it necessary to cut it loose. By skillful surgery his leg was saved from amputation and he will be able to use it in the future.

Nature's Remedies for Disease.

Nature provides more effective remedies in the roots and herbs of the field than were ever produced from drugs.

Thirty years ago, Lydia E. Pinkham of Lynn, Mass., discovered and gave to the women of the world a remedy made from roots and herbs, which had proved more efficacious in curing women's diseases than any other medicine the world has ever known, and today Lydia E. Pinkham's Vegetable Compound is looked upon everywhere as the standard remedy for woman's ills.

MEETING ADJOURS SINE DIE

Baltimore, Md., May 18.—Next year's Southern Baptist convention will be held at Jacksonville, Fla., on May 17.

Summarizing the work of the convention it may be said that it has been decided to enter into no alliances with other denominations; it had been resolved to enlarge the work of the Sunday school board by making it a general publication body; the convention declined to consider overtures from the Northern Baptist convention respecting cooperation work in the negro schools of the south, and delegates from Illinois representing more than 500 churches were seated in the convention, which also adopted resolutions favorable to the home mission board entering New Mexico and all states not hitherto occupied by the Southern Baptists.

The Southern Baptist convention adjourned after the most successful session in its history. The committee on temperance praised President Taft for setting the nation such a good example in the matter of total abstinence and in insisting on a change in the regulations governing the issuance of United States' licenses to retail dealers who are known to be bootleggers. Dr. J. B. Gambrell, of Texas, and W. D. Upshaw, of Georgia, both referred in their speeches on the temperance resolution to the political situation in Tennessee. Dr. Gambrell said that the whisky traffic had neither conscience nor heart and all that it did was done for the sake of money. He referred to some states where the officials were elected by the whisky power. Where this was the case a pardon industry in the interests of the liquor traffic was conducted. He said Tennessee and Texas in the coming elections had the devil to fight and no Baptist should vote for any candidate who was in favor of whisky in any shape, fashion or form.

Mr. Upshaw said that the prohibition cause was moving forward although a backward step had been taken in Alabama, and although Tennessee had a governor who was pardoning murderers at the instance of the whisky power.

A mass meeting conducted by the Home and Foreign mission board occupied the attention of the convention until the hour of adjournment.

PATTERSON ONLY
CANDIDATE OUTDEMOCRATIC PRIMARY ENTRIES
IN TENNESSEE.

Benton McMillan Will Stand for Nomination for United States Senator.

FIVE ENTER FOR JUDGESHIP.

Nashville, May 18.—The lists have been closed. Yesterday was the last day to qualify under the primary plan adopted for June 4 by the state Democratic executive committee. The complete list of the candidates who have qualified under this primary plan appeared in the Banner yesterday afternoon, no qualifications having been reported during the afternoon or night. Twenty-two candidates qualified. Each deposited \$100 with Chairman Austin Peay, making a total of \$2,200.

It is estimated that the primary election will cost at least \$10,000 or \$12,000, provided it is necessary to pay all the officers of election. To this cost must be added the expense of printing tally sheets, ballots and other election material. Assurance is given, however, that the state committee will "meet the emergency when the time arrives."

Party Nominees.

Under the primary plan which provides that in case there shall be only one candidate for any office that one candidate shall be declared the nominee, the following candidates will thus become nominees of the party:

For United States senator:
Benton McMillan, Nashville.
For governor:
Malcolm R. Patterson, Memphis.
For railroad commissioner, West Tennessee:

J. W. Thompson, Dresden.
For comptroller:
Frank Dibrell, Nashville.
For judges court of civil appeals, East Tennessee:

E. K. Bachman, Bristol.
West Tennessee:
J. D. Senter, Trenton.
Felix W. Moore, Union City.

In the Primary.

The following candidates having opposition, will run in the primary, June 4:

For treasurer and insurance commissioner:
W. T. Morris, Camden.

E. G. Tollett, Crossville.
DeLong Rice, Nashville.
For judges of supreme court: East Tennessee:

R. B. Cooke, Chattanooga.
M. M. Barton, Jr., Chattanooga.

Middle Tennessee:
B. D. Bell, Gallatin.

W. K. McAllister, Nashville.
West Tennessee:

S. L. Crockett, Memphis.

R. E. Maiden, Memphis.
W. W. Farabaugh, Paris.

For judges court of civil appeals (two to be nominated):

Middle Tennessee:

A. R. Gholson, Clarksville.

M. T. Bryan, Nashville.

H. H. Cook, Franklin.

H. C. Carter, Waverly.

Arthur Crownover, Winchester.

The sub-committee appointed under the primary plan to have charge of the primary, meets in Nashville today for the purpose of naming the various county sub-committees. This sub-committee consists of Hon. L. M. G. Baker, of Knoxville, chairman;

Mr. S. C. Lewis, Stewart county; Mr.

P. H. Williams, Winchester, and

Judge T. M. Scruggs, of Memphis.

Hon. E. Rice, of Dyersburg, was the

fifth member but has since resigned

from the state committee. The vac-

ancy on the primary committee thus

created has not been filled. The

county sub-committees are to be se-

lected from lists furnished by the

various candidates running in the

primary and it is probable nothing

will be done today except receive

these lists.

Calves.

The receipts were light, 61 head; for the two days 1,028. The buying crowd was small and strictly local; demand very light, and the trade quiet from start to finish, with but little change to be noted. Fair demand at steady prices for nice light butcher cattle; others neglected and very slow sale. Feeder and stock market dull, but little doing; the common and plain kinds very hard to sell. Bulls steady; canners dull; milk cows unchanged. No prime heavy cattle here today; feeling steady.

The annual conventions are attended each year by a large number of farm ers. The convention this year will be in session July 26 and 27. This year it is planned to make it the largest convention both in point of attendance and interest that has been held in Kentucky since the Farmers' Union was organized. The members are anticipating the attendance of C. S. Barrett, national president.

Got Too Young.

Hyperbole Gassaway went from here to a little town in Southern California for his health. In two weeks he wrote home that he felt ten years younger. Some days later he wrote again that he felt twenty years younger. Then his family heard no more from him. They telegraphed the mayor of the California town for information about

their Hyperbole Gassaway and got
